

Tableau Activity

Submission Requirements

- **Total Marks: 1%**
- This activity must be completed in teams of 2 or otherwise, individually.
- Only one member should submit.
- Submit your files as **Name1(ERP1)_Name2(ERP2)**

Task

Use your Assignment 01 (Power Pivot) dataset.

Create a BI solution on Tableau for a business problem of your choice that you have not solved in your assignment. You are required to create **1 story** using visuals studied in class which helps us better understand the problem identified. Your story may contain multiple sheets/dashboards as needed.

Submission Requirements:

- Tableau workbook file
- A word document with
 - Screenshots of Tableau story pages and a bulleted list of insights.
 - A snapshot of your drill-down strategy from Assignment 01.

Please note: This activity does not test your cleaning/EDA skills.

Grading Rubric

You will be graded on the following aspects:

1. Explanation of your thought process to solve the BI problem.
2. Quality of Visualizations and story narrative with insights
3. Timely submission and completion

Submit your work on LMS within class time.
